Packettracking Adapter Parameters

I. probeAdapter

parameter	type	syntax
interface	String	<interface>
oid	String	<oid>
location	String	<lat.>:<lon.>:<exportRatio>
collector	String	<collector-IP>:<collector-Port>
packetFilter	String	<berkely-filter-expression>
samplingRatio	String	<samplingRatio>
install	String	No entry needed
target	reference	</pnode-...>
resource	String	</pnode-...>
username	String	<username>

II. collectorAdapter

parameter	type	syntax
id	String	<id>
exportFolder	String	<folder>
exportFormat	String	<csv/obj/csv+obj>
exportHost	String	<export-IP>:<Export-Port>:<export-interval>
collector	String	<path>
ttlcheck	String	No entry needed
install	String	No entry needed
target	reference	</pnode-...>
resource	String	</pnode-...>
username	String	<username>
